TO WHOM IT MAY CONCERN

This is to advise that InfoTech Training Centre of Suva was contracted by the Authority during the middle of 2002 to carry out a review of the IT System and draw up a Strategic Plan.

The requirements of the contract were performed satisfactorily and the IT Strategic Plan was subsequently approved for adoption by the Board.

Yours faithfully

Fiji in virtual link with Swiss

By SOPHIE HILDEBRAND

IF you're wondering what on earth Switzerland has to do with business here, think Nestle, Rolex, Tissot, Omega, Rado, Raymond Weil, Victorinox, Tobler Toblerone, Credit Suisse-First Boston investment and banking services, Sulzer turbines.

In fact, the list can grow even bigger with the variety of goods and services coming out of that country.

Now, Swiss living and working in Fiji have set up the Swiss-Fiji Business Association.

Aiming to foster trade links in goods and services between Fiji and Switzerland, it will also look at investment in the two countries.

Last night, the association was kicked off by the Swiss Ambassador to Fiji, Sylvie Matteucci, and Fiji Trade and Investment Bureau chief executive, Jeson Vitasagavulu.

The Ambassador was keen on potential here.

"In a globalised world, every country, every firm is an attractive partner."

"Fiji has a good location in the middle of the Pacific Rim, a buoyant economy, good communications, and a willing and skilled work force."

"Political conditions are stabilising. The fact that people in Fiji have created this initiative is a sign that there is widespread business confidence in the future of Fiji."

On what the country could export to Switzerland, she says the imagination is the limit.

"Fiji has specialised textile companies, it has top level IT firms, or sought after agricultural specialities. It is a magic tourist destination."

"Fiji can find a niche in the Global Value Chains that now span the globe. The Asian

Swiss ambassador, Sylvie Matteucci, at the launch of the Swiss-Fiji Business Association last night

Development Bank has pointed this out. New Zealand foreign minister Phil Goff has given a similar view in a recent speech at USP. I can only join them and point out that GVC have long been a mainstay of the Swiss economy. It is an economy that is fully integrated in Europe, one of the most dynamic markets world-wide."

She believes that as the political situation stabilises here, the country will be an attractive investment destination.

"As the political situation stabilises and Fijians work more and more together to overcome poverty and underemployment, investment becomes an attractive

option. Closer links between Switzerland and Fiji would seem to me a logical consequence."

The Ambassador, who learned to scuba dive off Taveuni says it is always difficult to leave Fiji — a quality the country should utilise.

The Swiss-Fiji Business Association also launched its website, www.swissfiji.com.

"We want to make it easy for Fijian entrepreneurs to enter the Swiss market," says organiser Daniel Zender.

"They can log into the site and get a wealth of information, contacts, and tips on how to go about it. We plan to improve the site, by

creating links to many Swiss firms that are interested in trade."

Plans are to integrate the website into the Swiss trade promotion IT networks, so that the site is always up to date.

"Then we dream about a trade and investment mission to Switzerland," he says. "Finally, we would like to branch out into the other Pacific Islands and become a regional focal point for trade with Switzerland."

Considering the big brand names involved in business in Switzerland, it's a wonder more such developments haven't happened already.

TO WHOM IT MAY CONCERN

This is to confirm that Consort Shipping Limited is and has been using the services of Mr. Daniel Zender, a consultant from Info TECH Training Centre.

He continues to assist us with support and trouble-shooting of our Novell NetWare network and the SBT Pro accounting system software.

We are fully satisfied with Info TECH's service and the acumen and expertise of Daniel. His ability to tend to our problems in a timely and accurate manner is highly appreciated by both staff and management. On several occasions he recommended realistic strategies how our accounting system and other business processes could be improved and result in better performance and customer relationship. His reports are precise and easy to understand. Last but not least, I personally esteem his frankness and honesty.

I have no reservation to recommend Daniel Zender and Info TECH to other business entities requiring the services of experienced IT consultant.

Contact in confidence undersigned for any further information.

Yours faithfully

Company Limited

31st October 2001

To Whom It May Concern

Mr. Daniel Zender of InfoTECH was introduced to our company by our IT consultant in July 1997. After this consultant returned to United Kingdom in October, Daniel started providing consulting services for our organisation. We are using a modified version of SBT Pro 2.5 Series (GL, AP, IC, AR – all modules with FoxPro source code) which has been tailored to the specific requirements of an all-purpose insurer.

Since then, he is assisting us with trouble-shooting, software modifications and enhancements to our SBT accounting software, network installation and support.

In April 1999 we commissioned him to evaluate our SBT system and generic hardware/software for Y2K compliancy. After a thorough testing, he was able to report 100% compliance to the Commissioner of Insurance (Reserve Bank of Fiji).

In September 1999, our Y2K Crisis Task Force Committee included Daniel as a member of the Y2K Contingency Plan Project Team. He has helped us extensively by compiling the Y2K Contingency Plan. In addition, he provided help during the roll-over period – a smooth transition.

In April 2000 he modified FoxPro reports and source code enabling us to print customer statements on laser printers.

Early 2001 he assisted us to convince our Board of Directors to opt for a new insurance software package.

Since the start of our business relationship with InfoTECH, we have been very satisfied with the service and professionalism of their consultant, Daniel Zender. We specially appreciate his fast responsiveness to any computer problem, his honesty and esteem his computer knowledge and business acumen. On more than one occasion, he suggested solutions and remedies that helped our company saving cost.

For all the services rendered we thank him. I have no doubts to recommend InfoTECH and Daniel Zender to anyone requiring professional computer consulting.

Contact undersigned at zabidi_a@yahoo.com for any further information.

To Whom It May Concern

This is to confirm that **Infotech Training Centre** conducted the following computer training sessions for our Utilisation Division staff in 1999.

Course	Duration	No. of Participants	Comments
Access- Introduction Intermediate and Advances	10 days	3	Very satisfactory

Courses conducted were performed in a very professional manner and have assisted a lot with our data processing etc.

We strongly recommend this company to any organization, which is intending to conduct similar course for its employees.

The Division would like to wish you well on your future endeavors.

For Principal Utilisation Officer

CARLTON BREWERY (FIJI) LIMITED

TO WHOM IT MAY CONCERN

We have had the opportunity of utilising the services of InfoTECH Training Centre as external training provider for Carlton Brewery (Fiji) Limited during the month of February, 2000.

InfoTECH Training Centre conducted an in-house training for eight of our staff at our premises on "Getting Started with Microsoft 97". The course was held on 23 evenings commencing 14th February to 17th March, 2000.

The feedback received from the participants from day one until the end of the training was encouraging. We commend InfoTECH for teaching our staff in the use of the software so that they can competently perform at their respective establishments. The presentation by InfoTECH's training instructor, Mr. Daniel Zender was well presented and executed in a professional fashion. Mr. Zender not only passed his computer knowledge to our staff, but conveyed how a certain business task can be achieved faster, more accurate or with better corporate image using the respective function of a software of Office's application suite.

InfoTECH has shown that it can provide tailor-made computer training to any corporate entity that wishes to use its in-house training service. It has been an undiluted pleasure to work with Mr. Zender and his support staff and we have no reservations in recommending the services of InfoTECH to any potential corporate entity that would like to take advantage of their services.

TO WHOM IT MAY CONCERN

This is to confirm that we in Network Engineering have been using the services of InfoTECH Training Centre from 1998.

Our staff have gone through numerous Microsoft Office based Computer training with InfoTECH Training Centre.

The feedback from staff who participated have highly rated their training including course content, knowledge dissemination and manuals.

The participants have been specifically impressed with the instructor's ability to share his extensive computer and business experience.

I do recommend InfoTECH Training Centre to any organisation considering professional computer training.
